# SAFARI

The Safari is built for people who want the kind of personal mobility that can help put fun and adventure in their lives.

The Safari is at home indoors as well as outdoors. Its short turning radius rivals that of front wheel drive scooters, and its rear wheel drive design has plenty of power for outdoor activities. Safari is available in either the standard chain drive or the ultra-quiet transaxle drive.

Its non-rusting aluminum frame gives you maximum strength with minimum weight.

Shown with optional wheel covers

Available in:

The optional power seat lift (shown at left) lowers you to "chair height" for comfortable seating at a table or desk. The low position also allows for easy transfer between your Safari and a chair, wheelchair, or van seat.

of leg room and a comfortable, contoured seat add up to a great ride.

And you can take it with you! Safari's patented disassembly mechanism is so easy, you can disassemble the front and rear frame sections in seconds with the pull of a single handle.

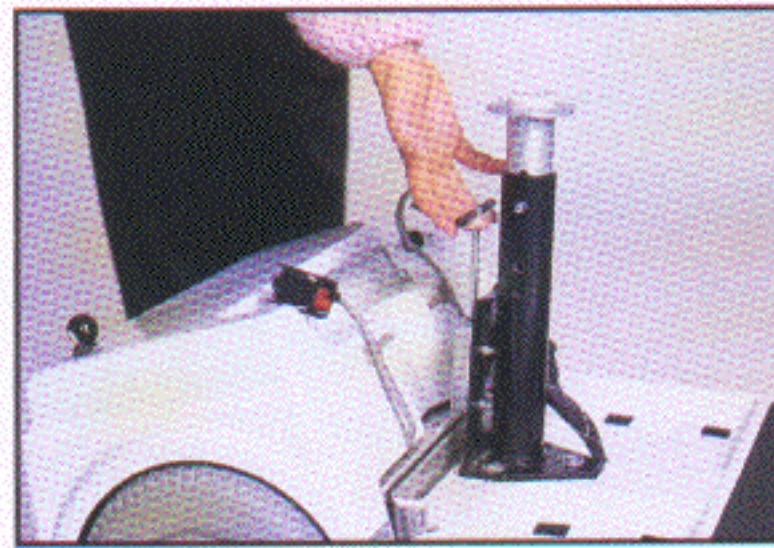

## EASY DISASSEMBLY

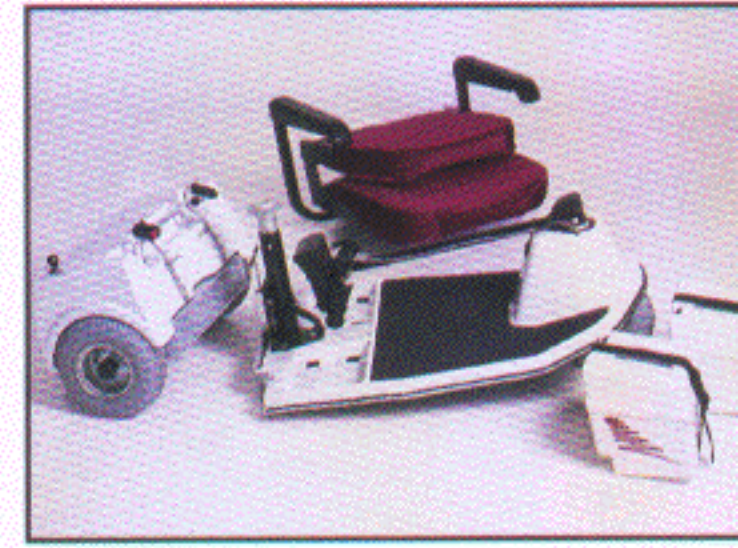

1. Remove seat.

2. Remove batteries.

3. Pull "T" handle.

4. Ready for loading.

## SPECIFICATIONS

Overall length .....	40" or 43"
Overall width .....	22"
Weight of heaviest part.....	38 lbs.
Total weight (less batteries).....	99 lbs.
Maximum speed.....	4.5 mph forward 2.7 mph reverse
