

WOOH! FEEL THE FREEDOM!

SOLO IV

by

RANGER

RANGER ALL SEASON CORPORATION

SOLO IV

Feel the freedom of the four-wheel Solo IV. Now, more than ever, you can experience all of the activities you enjoy. The Solo IV is designed to give you maximum power and stability, while keeping all of the proven "user friendly" features that have made the Solo so popular. Whether it's camping, picnics, gardening, shopping, or a ride in the park — you can do it all with a Solo IV.

with optional
wheel covers

Available in:

white red

Easy disassembly

You won't believe how easy it is. The frame separates in seconds with the pull of a handle. (Same disassembly as the three-wheel Solo and Safari.)

Transaxle drive

Solo IV is available in either the standard chain drive or the ultra-quiet, fully-enclosed transaxle drive.

Turning radius

You'll be amazed at how short the Solo IV can turn, especially if you've tried other four-wheel scooters. You'll really appreciate the maneuverability and stability of this four-wheel scooter.

Tiller adjustment

The control is at your fingertips, so there's no need to bend over to adjust the tiller angle. Four positive-locking positions give you easy access and a comfortable ride.

Aluminum frame

Aluminum gives the Solo IV more strength with less weight - and no rust.

Easy to use

Fully-variable speed control provides smooth starting and stopping. A dial control allows you to set your maximum speed. The electro-mechanical brake comes on automatically when you stop, and releases automatically when you start. A key lock is provided for security.

As easy to adjust as the "tilt" feature on your car steering wheel.

SPECIFICATIONS
